Now Available: VJ-4 Borescope Report Maker

**OPERATOR
DRIVEN
INSPECTIONS**

ViewTech's [Borescope Report Maker](#) is a Windows-based program that easily facilitates the creation of a Microsoft Word document containing the saved images from a VJ-4 video borescope inspection.

A detailed inspection summary highlights inspection folder details, including the number of images and links to flagged images. Flagged images can include comments noting defects, point out questionable images, highlight excellent component condition or review the status of a prior repair.

[Find out more](#) about integrating the Borescope Report Maker into your inspection process.

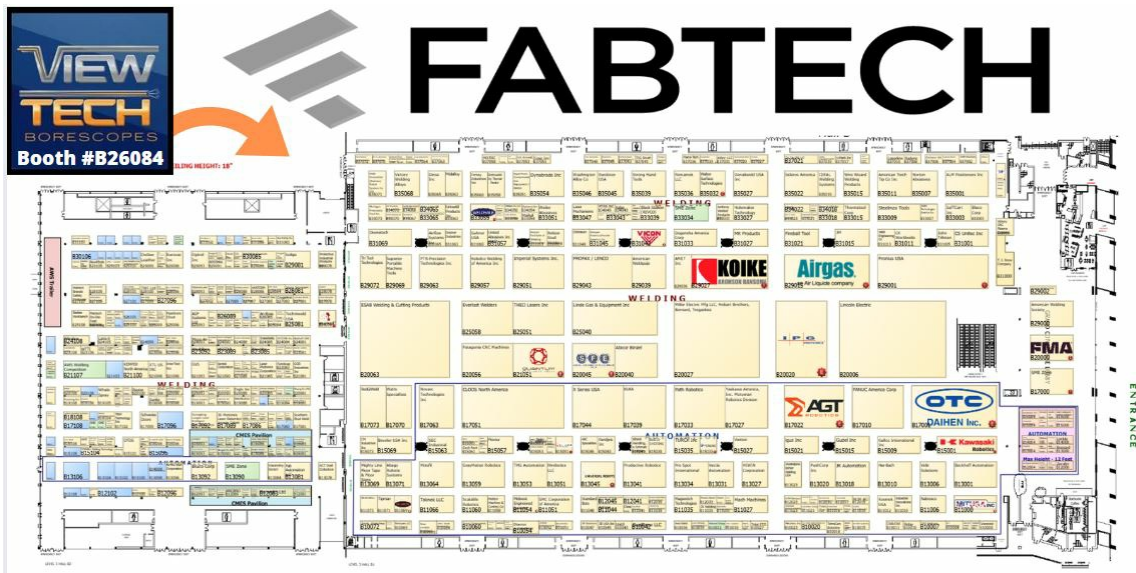

Be Our Guest At FABTECH 2025

ViewTech Borescopes is gearing up for FABTECH 2025, taking place September 8–11 in Chicago!

This is where the manufacturing world comes together to see the latest innovations, connect with industry experts, and explore what's next.

We'll be there—will you?

Be sure to visit ViewTech Borescopes at Booth #B26084!

Why Stellantis Has Halted Hydrogen Fuel Cell Innovation

Stellantis the owner of car brands such as Peugeot, Fiat, Opel and Jeep, was one of the few car manufacturers getting involved in hydrogen fueled cars. Stellantis has released a statement sharing that the company is halting the hydrogen fuel cell programme, as it says that the hydrogen market is showing no development prospect at mid term.
