ViewTech Takes Their Borescopes On The Road, Again!

The ViewTech team is gearing up for a busy travel schedule as they begin their spring exhibition schedule. With 9 conferences, 6 states, 2 countries and thousands of attendees expected, the team at ViewTech is ready to hit the road with the VJ-3 and VJ-4 video borescopes.

If you're looking to attend any of the events listed below, we have limited free expo passes available for select dates. Contact us regarding the event you are interested in attending.

BOOTH 1205

Western Turbine Users Inc

Palm Springs, CA
March 24-27

The Western Turbine Users, Inc conference consists of technical breakout sessions for the GE LM2500, LM5000, LM6000, and LMS100 lines of engines. Technical presentations are made by industry experts on various environmental, operations and maintenance issues surrounding operations of gas turbine fired power plants.

MRO Americas Aviation Week

Chicago, IL
April 9-11

MRO Americas Aviation Week is the largest aviation MRO event in the world! Attend MRO Americas to learn the hottest trends, experience new ideas, services and products, which is co-located with the Military Aviation and Logistics Symposium (MALMS).

BOOTH 4375

BOOTH 1943

INTERPHEX

New York, NY

April 9-11

INTERPHEX brings over 10,000 global industry professionals and 625+ leading suppliers together to "Learn It, Experience It, Procure It" through a combination of no cost technical conference, exhibits, demonstrations and networking events to leverage quality, efficiency and cost effectiveness in today's global market.

BOOTH 407

NBAA Maintenance

Portland, OR

April 30 - May 2

About NBAA Maintenance 2024: The NBAA Maintenance Conference provides vital education and networking opportunities for anyone involved in business aircraft maintenance – from technicians to directors of maintenance. Stay up-to-date on the latest operational information critical to your job function and connect with over 900 fellow peers.

BOOTH 3414

CLEANPOWER

Minneapolis, MN

May 6-8

CLEANPOWER is the exhibition hub for the renewable energy industry and supply chain. CLEANPOWER features exhibitors and conference programming specifically for utility-scale solar and storage as well as focus on key, strategic issues that impact the pan renewable community.

BOOTH 407

AISTech

Columbus, OH

May 6-9

Steel's premier technology event features session topics spanning the entire steelmaking process, from raw materials to finished products. Thousands of steel industry professionals attend AISTech each year to learn about the latest products, processes, technology advancements and digitalization transformation.

BOOTH 1477

AUTOMATE

Chicago, IL

May 6-9

AUTOMATE is the largest and most inspiring showcase of automation in North America. It's the best place to discover powerful solutions—from innovations in AI and robotics to tried-and-true workhorse technologies—that will solve your unique challenges and propel you forward. Plus, the Automate show is free for all to attend.

BOOTH 722

Reliable Plant Conference

Chicago, IL

June 3-6

Professionals attending Reliable Plant Conference & Exhibition come from dozens of different machinery-centric industries, but conference survey results indicate they all had one important thing in common: they learned something new. Reliable Plant goes beyond just presenting new ideas; it gives you strategies for rallying colleagues and management behind these new ideas so they can be implemented and ultimately result in visible, measurable improvements.

Industry News

Beehive Industries Fires Up New 3D Printed Jet Engine In Record Time

Beehive Industries' new turbojet demonstrator was fired up, for the first time, in a custom-built test cell at the company's HQ in Denver. The American manufacturer of aerospace and defense, a heavy user of AM, said that this significant milestone was achieved in record time, going from a clean sheet design concept just 16 months ago to being officially ignited and running under its own power for the first time.

Engineering Household Robots To Have A Little Common Sense

From wiping up spills to serving up food, robots are being taught to carry out increasingly complicated household tasks. Many such home-bot trainees are learning through imitation; they are programmed to copy the motions that a human physically guides them through.
