### ViewTech VJ-4 Borescopes Inspecting Carbon Capture Technology

**6.0mm****VJ-4**  
BORESCOPE

Carbon capture technology is a crucial tool, mitigating climate change by reducing greenhouse gas emissions from industrial sources. Industries are able to continue operations while reducing their carbon footprint.

A leading Canadian carbon capture technology innovator is now using the VJ-4 6.0mm x 1.5 meter video borescope during shutdown maintenance downtime. The VJ-4 can complete crucial filter bed inspections via access through 1/2" piping.

## Where To See Us In June

Renaissance Schaumburg  
Convention Center Hotel  
Chicago, Illinois  
June 3-6  
Booth #722

Professionals attending Reliable Plant Conference & Exhibition come from dozens of different machinery-centric industries, but conference survey results indicate they all had one important thing in common: they learned something new.

Reliable Plant goes beyond just presenting new ideas; it gives you strategies for rallying colleagues and management behind these new ideas so they can be implemented and ultimately result in visible, measurable improvements.

BMO Centre Stampede Park  
Calgary, Canada  
June 11-13  
Booth #683

The Global Energy Show is inclusive to all energy systems, including features on the exhibition floor and conference in oil sands, hydrogen, wind, solar, petrochemicals, gas and LNG, electrification and nuclear.

As no single source of energy can meet the increased global energy demand, the Global Energy Show is where Canada demonstrates its vision and leadership by bringing the right people together to meet global challenges with real-world solutions.

## Industry News

[GM Patents Clutch for EVs, No Pedal Required](#)

A patent secured by GM Global Technology Operations LLC and published on May 16, 2024, hints that GM is developing a clutch for use on some of its future electric vehicles. The patent describes a method of operating a vehicle's clutch using an actuator device that relies on measuring fluid pressure to determine the position of the piston within the actuator.

## [ThinkOrbital Developing Satellite Repair Toolkit With X-Ray Vision](#)

ThinkOrbital later this year will attempt to demonstrate a robotic arm in space equipped with a welder gun that could be used to repair and take X-ray images of satellites. The upcoming demonstration is part of the startup's broader vision to provide an array of tools and facilities for repairing and maintaining spacecraft in orbit.
