VJ-4 8.4mm x 8.0 meter Dual Camera

A top 10 global dairy processor needed a longer video borescope for a new inspection application. Leveraging ViewTech's trade in program the dairy processor received some trade in value for their existing 1.5m VJ-3 borescope and that helped them procure an 8.0m VJ-4 borescope. The 8.0m VJ-4 borescope is a dual camera unit which makes the inspection even easier.

VJ-4 6.0mm x 3.0 meter Far Focus

The largest contractor on the California State Water Project had been utilizing another brand of borescope for their inspections. A VJ-4 6.0mm x 3.0 meter Far Focus video borescope was tested at their location with ViewTech's no-cost demo offer. After inspecting several vertical turbine pumps, the decision was made to purchase the VJ-4 Far Focus.
