New Inspection Possibilities Begin at 0.75mm

INTRODUCING THE 0.75mm DIAMETER VJ-4

When the opening is smaller than a millimeter, every fraction counts. Meet ViewTech's slimmest video borescope yet: **the VJ-4 0.75mm**. Designed for exceptionally tight access points, it brings visual inspection to aerospace, precision manufacturing, semiconductor equipment manufacturing, and beyond!

Fiber optic illumination helps quality teams inspect for obstructions ande visible irregularities that affect component performance. Put it to the test on your unique application with a free demo and guidance from a ViewTech, video borescope expert.

Request Free Demo - 0.75mm VJ-4

Small Diameter. Strong Reaction

A leading aerospace manufacturing company shared this feedback:

> **"The features and picture quality are second to none... once word gets around here people will be ordering the 0.75mm"**
>
> — **0.75 mm VJ-4** customer, aerospace

Q4 DIRECTOR'S SPECIAL

50% Off Select Models

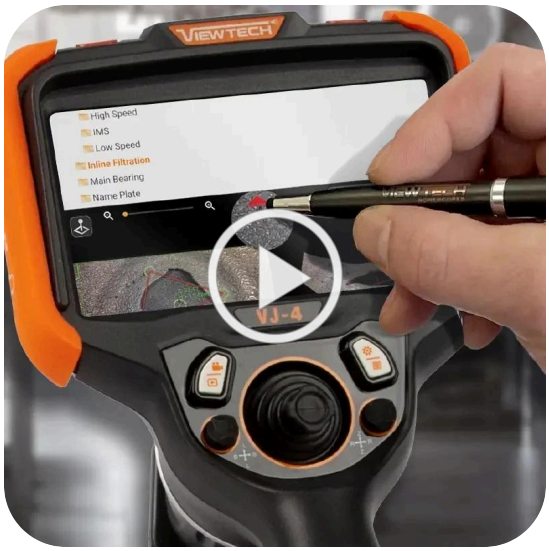

We're wrapping up the year with 50% off list price on a limited number of ViewTech borescope models. Only while supplies last!

FEATURE OF THE MONTH

Fast Folder Select

Keep inspection images organized as you work. Fast Folder Select lets you switch the active folder directly from the live image screen, eliminating after-hours sorting.

A quicker way to stay organized:

- **Set up folders by asset or inspection area**
- **Switch folders without leaving the inspection.**
- **Spend less time sorting afterward.**
- **Easily generate professional reports with ODIN Borescope Report Maker.**
