

Borescope News

ViewTech's [VJ-4 articulating video borescopes](#) are perfect for both commercial and defense aerospace applications. The cost of downtime - whether from planned maintenance or equipment failure - can result in missed deadlines, longer wait times, and higher maintenance expenses.

Parts with diameters as tiny as 1.1mm are easy to inspect for faults or problems. Benefit from ViewTech's [no-cost, no-obligation demo offer](#) by getting a chance to use a VJ-4 video borescope firsthand.

For technicians who are new or unfamiliar with the ViewTech VJ-4 borescope, the video below serves as a useful tutorial. Visit our expansive library of [operation, inspection and borescope videos](#).

All Systems Go: Vaya Space Proves Why 3D Printing and the Space Industry Need Each

Other

The space industry has always attracted systems thinkers, and it's pretty obvious why that's the case. You have to be able to view the world in terms of a "big picture" to grasp the million or so different connections that must harmonize, for objects made on Earth to be shot out of the atmosphere and enter orbit intact.

The Quest For Corrosion Proof Satellites

Low Earth orbit might seem like empty space, but for the thousands of satellites circling our planet between 95 and 1,900 km up, it's actually a surprisingly hostile environment. Every moment, these spacecraft are bombarded by highly reactive oxygen atoms that corrode their surfaces, while collisions with atmospheric molecules create drag that gradually pulls them back toward Earth.
