Different industries. Different challenges. One shared goal—Seeing what matters

This October, ViewTech connected with with thousands of engineers, QA managers, and technicians across four major industry events exhibiting at **ASNT North America, NBAA BACE**, **FABTECH,** and **Automotive Testing Expo**.

Here are 4 key takeaways we brought back from the tradeshow circuit.

ASNT 2026 TOGETHER WE LEAD

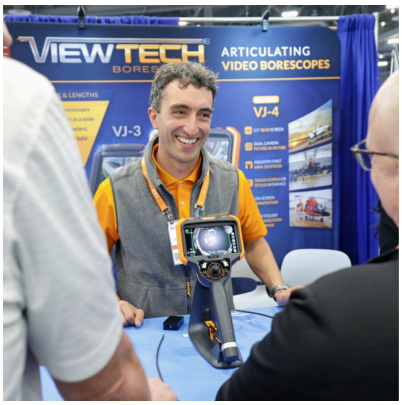

14 YEARS EXHIBITING

THE TAKEAWAY:
One size doesn't fit every inspection.
From the tightest aerospace access points to complex industrial environments, ViewTech's **versatile VJ-4 lineup** offers specialized configurations to meet the diverse demands of NDT professionals.

NBAA BACE

13 YEARS EXHIBITING

THE TAKEAWAY:
Aviation requires absolute precision.
Our **3D Measurement VJ-4 and 11" Screen Replicator Tablet** impressed attendees, including a South Florida MRO team that purchased on the spot!

FABTECH

11 YEARS EXHIBITING

automotive testingexpo ★ NOVI ★ ★ MICHIGAN ★

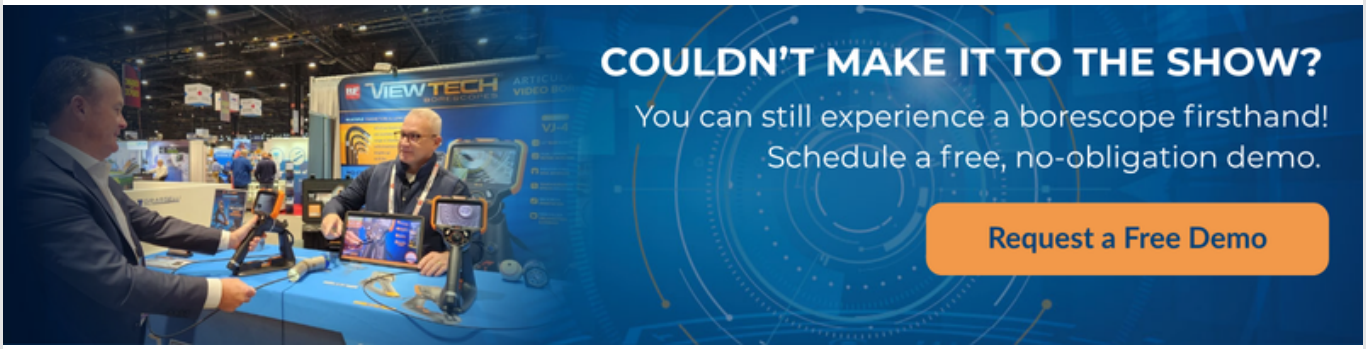

14 YEARS EXHIBITING

THE TAKEAWAY:
Durability is non-negotiable.
Our Tungsten-braided, IP67-rated scopes withstand the harshest environments. The **6.0mm Dual Camera** has been running continuously at FABTECH for 11 years!

THE TAKEAWAY:
Finding a defect is only part of the process.
ODIN Borescope Report Maker turns inspection images and notes into organized reports, helping automotive testing teams document findings and relay results.

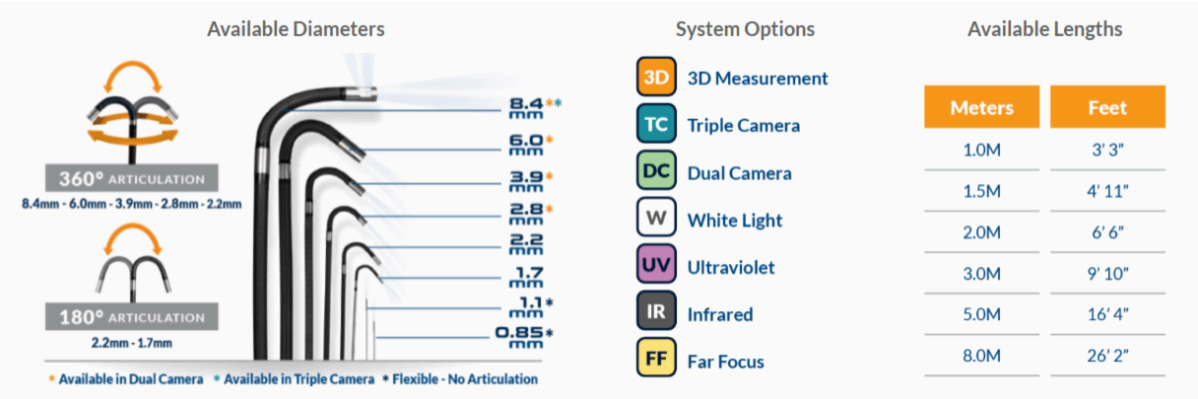

Choosing the Right Probe: 4 Considerations Across All Industries

Speak With an Expert

From aircraft engines to battery assemblies, the right probe improves inspection efficiency and accuracy. Let our expert team help you find the right probe for your unique application. Here are four key factors to consider:

- **Access Point Diameter**: Will the probe fit through the opening with enough clearance to maneuver?
- **Articulation:** Can the probe navigate bends and reach the inspection area?
- **Viewing Direction**: Would a forward-view, side-view, or dual-camera provide better visibility?
- **Inspection Distance:** How far must the probe travel from any entry points and what working distance is needed for a clear image?

Get Up Close at Our Next Tradeshow

ViewTech's borescope inspection experts look forward to seeing you on the road to experience the entire VJ-4 lineup hands on! Or **call us any time at (231) 943-1171** and we'll send you a free demo borescope for your next inspection.
