BORESCOPE

After connecting at Space Tech Expo, a commercial rocket manufacturing company's engineering team was shipped a [VJ-4 1.7mm](#) and [2.2mm](#) video borescope to trial before they made the decision to purchase. In addition to the articulation range receiving positive feedback, ViewTech's lower repair fees compared to their previous equipment provider would be cost-saving.

BORESCOPE

Wanting to gain access through tight spaces, a global elevator and escalator repair company had previously been conducting remote visual inspections utilizing flashlights and mirrors. After several years of purchase restrictions in place, their maintenance team was able to finally purchase a [VJ-4 6.0mm Dual Camera](#) borescope for their toolbox.

Archer's Midnight Flight Test Program Reaches Record Heights

Archer Aviation Inc. (NYSE: ACHR) today announced that its Midnight aircraft successfully completed its highest altitude flight to date, reaching altitudes of 7,000 feet. The flight took off from Archer's test facility in Salinas, CA, and represents the latest milestone in Midnight's envelope expansion testing program.

[Blue Origin Broadcasts Live From A 360-Degree Camera In Orbital Freefall](#)

Blue Origin has released a 360-degree camera from its New Shepard sub-orbital vehicle, allowing it to tumble into a natural free-fall orbit. Jeff Bezos did the honors on Twitter, unintentionally highlighting both how 360 cameras work and the most insane form of image stabilization I've ever seen.
